

## Accessing Alumni-mail

To access Alumni-mail you have two choices. One is logging on to [KUnet](#). The other is web-access through the internet. For both solutions you will need your KU Username and password.

1. Visit: <http://webmail.ku.dk>
2. Log on using your personal [KU Username](#) and password as shown below.

A screenshot of the KUnet login page. The page has a white background with a red border. At the top, it says "KØBENHAVNS UNIVERSITET" and has a small logo. Below that, there is a "Sikkerhed" section with two radio buttons: "Jeg deler denne computer med andre" (unselected) and "Jeg deler ikke denne computer med andre" (selected). A note below says "Bemærk: Hvis du markerer denne indstilling, skal du huske at logge af systemet efter brug. Ellers kan dit login misbruges, hvis andre alligevel bruger din computer." Below this is the login form with fields for "KU-brugernavn:" (containing "bdg123") and "Password:" (containing "\*\*\*\*\*"). A "Log på" button is to the right. At the bottom, there are two columns of links: "Hjælp:" with links like "Første gang du logger på", "Glemt KU-Brugernavn", "Glemt password", "Glemt pinkode", "Login med engangspassord", and "Skift password"; and "Aktuelle driftsforstyrrelser" with links like "Captia er lukket fra 2/5 kl. 16 til 3/5 kl. 10.", "Debitor: Periodiske printerproblemer mellem AGETOR og CUPS", "ØSS: Problemer med ØSS efter opgradering", "PC/Print: Mails fra scannere markeres som mulig spam", and "Fanix nrhlemmer-ivalann". A small UK flag icon is at the bottom right.

You now have access to Alumni-mail.

If you still have problems then please visit the page of [University IT](#) for further help and information.
